R. L. Polk & Co. announced the publication of an important volume dealing with the life of New York City in an authoritative and painstaking style. The title of this most recent contribu-

AFOLIAN-VOCALION

The Wonderful New Phonograph of Perfect Tone

LARGE proportion of Acolian-Vocalion sales are made to people who hitherto have entertained a

dice against the talking-machine, because of that instrument's universally recognized tonal deficiencies.

Such persons have invariably come to Aeolian Hall to reassure themselves that all tone-reproducing instruments are alike in result -that the much vaunted phonographs are little different.

And what agreeable surprises they have met with!

The process of converting the doubters continues day after day with little variation in its successful conclusion.

The skeptic seated in a pleasant music room looks on as the record is placed in the Vocalion. Expectantly he awaits the thin, reedy, talking machine tone-and is therefore all the more astonished to hear the wonderful voice which swells through the room as the record begins - a voice that is human, that is full and clear and vibrant with emotion.

Softly the high notes waft forth, bell-like in their sweetness and purity. Lovingly the deep, harmonious tones of the accompaniment entwine the voice, each instrument sounding clearly; the basses infinitely rich, with all their subtle, sympathetic overtones adding their distinguishing tint of wonderful music color-every treble tone true in pitch, true in every delicate shade of expression.

There is nothing phonographic in this exquisite music. Here is no stridency - here are no half-counded, half-distorted shadows of

It is a real voice, and it is real instrumental tone, unchanged, undimmed, just reflected through intervening time by this great new musical instrument.

None but unreasoning prejudice can withstand the weight of such conclusive demonstration. No music lover but must respond to the music-richness that the Vocalion reveals in every record.

THE WONDERFUL NEW PRIVILEGE

But it is not tone alone that has won for the Acolian-Vocalion its present position of supremacy.

The wonderful new privilege of tone control makes the Vocalion more than a tone-reproducing instrument-in reality a remarkable new medium for musical expression.

By means of the Graduola, the unique patented device exclusive with the Vocalion, you may shade each note, graduate each toneliterally play each record as you like, as you feel.

The master artist's skill and sweet tone become the voice of your heart and at last you may enjoy the transcendent pleasure of making music, instead of being a listener merely.

Use the Graduola if you wish. It will bring you a new knowledge of, a new joy and belief in music. And when you prefer, the Vocalion plays itself as any other phonograph-but with its vastly more satisfying tone-its rich, full, nat-

AN INVITATION Come in and hear and play this newest and greatest phonograph. Do not hesitate because you are not immediately interested in buying. We are glad to demonstrate the Vocalion irrespective of any question of purchase.

A first payment as low as \$8 secures delivery of Vocalion, style G-together with a fine collection of records.

Vocation Prices-Non-Graduola styles, \$35 to \$75 Graduola styles, \$100 to \$350 Art Styles to \$2000 Catalogues sent on request.

track foremen and laborers. It is also inspected once every month by the Special Track Inspection Committee. More than 34,000 men are employed in the Maintenance of Way Department.

One hundred and two prizes, aggregating \$9,600, are awarded annually to Supervisors and track men for the best maintained roadway.

It is by such substantial construction and such thorough inspection that the Pennsylvania System was able to carry during the last two years, 362,000,000 passengers without a single train accident fatality to one of them.
